presentations, planning sessions,
educational resources, lunch, and
strategies to empower youth
voice and agency.**

Commemorating the signing of the Declaration of Independence and the anniversary of California's statehood prompts us to reflect upon the guiding principles of our state and nation. More importantly, it demands we forge a path that secures the future of our democracy.

Join us for critical dialogue, resources, and inspiration to create a citizenry that truly understands and values democracy.

*What does our nation's future mean to you? To young people?
What can we do in our schools and communities to ensure our democracy is
strengthened and endures for future generations?*

Sponsored by

**Californians for Civic Learning and the Sacramento County Office of Education,
Civic Education Center, and Teach Democracy**
