California Youth Civic Summit

February 10–11, 2026

The Moment

In 2026, our nation will mark America's 250th anniversary and California's 175th. These historic milestones call for bold reflection and action – and youth must be at the table.

The Program

The Civic Education Center (CEC) will bring a select group of diverse youth leaders to Sacramento for a **two-day leadership experience**:

Day 1 – America 250 & CA 175 Dialogues

- Interactive civic engagement activities.
- Strategic collaboration with peers to identify issues and plan the Panel Presentation.
- Youth leaders will discuss how to create the California Youth Civic Network, a youth-led, civic engagement initiative.

Day 2 – Leadership in Action

- Panel Presentation to state education leaders.
- Participation in the Civic Learning Summit, with civic leaders and breakout sessions.

The Impact

- Amplify youth voice on how to improve their nation, state, and communities.
- Cultivate civic leaders ready to solve problems and serve.
- Clarify American civic values and strengthen our democracy.

Youth will turn these insights into a Panel Presentation for education leaders at the Summit, ensuring their voices influence real policy conversations.

**Deadline to Apply
December 20th**
